

Assima Atlantic Link Technical Specifications

The technical environment required to use Atlantic link software

Version 2.1.5757

Author	Assima Technical Documentation
Date	21/10/2015
Version	2.1.5757
Audience	All
Overview	This document contains information on the technical environment required at a client site in order to use the software.

Table of Contents

Knowledge Point 2.1	3
Capture Point 2.1	5
Content Point 2.1	6

Knowledge Point 2.1

Knowledge Point is part of Atlantic Link’s collaborative e-learning infrastructure. It provides comprehensive LMS functionality including launching and tracking of courses, results storage, student import, user groups, author groups and more.

Knowledge Point is also a collaboration server, allowing Content Point courses to be maintained and delivered using a web browser.

Knowledge Point is installed on the computer that hosts the central authoring location in the organization. All client computers that are used for authoring must be pointed to this location when you roll out the clients. The server should be installed as a web server using the HTTP protocol.

To support diverse authoring projects, you can host multiple servers and authoring projects on the same computer.

The minimum & recommended requirements for Knowledge Point – Server

Component	Minimum Requirements	Recommended
Processor	Intel Core 2 Duo	Xeon 2000 MHz or more (Dual Xeon for 10 + developers)
Operating System	Windows Server 2003	Windows Server 2008 Windows Server 2008 R2 or later
Service Packs	SP2 for Windows Server 2003	SP2 for Windows Server 2008 SP1 for Windows Server 2008 R2
Memory	2 GB	4 GB or more
Dedicated Disk Space	10 GB	15 GB or more
Database	Microsoft SQL Server 2000 Microsoft SQL Server 2005	Microsoft SQL Server 2008 or later
.NET Framework	Microsoft .NET Framework 3.5 SP1	
Internet Information Services	IIS 6.0	IIS 7.0 or later
Flash Publishing Engine	ASP.NET Turbine 7*	

* Clients require a full license for ASP.NET Turbine, which is not included with Knowledge Point.

The minimum & recommended requirements for Knowledge Point – Learner

Component	Minimum Requirements	Recommended
Processor	Pentium III	Pentium IV or more
Memory	512 MB	1.5 GB or more
Browser in Knowledge Point	Internet Explorer 8.0 Mozilla Firefox 14.0 Google Chrome 14.0 Microsoft Edge	Internet Explorer 8.0 or better ¹
Browser Standalone or SCORM ²	Internet Explorer 8.0 Mozilla Firefox 3.0 Google Chrome 14.0 Microsoft Edge	Internet Explorer 8.0 or better ¹
Adobe Flash Player	Flash Player 8.0	Flash Player 9.0 or later
JavaScript	Enabled	

Note¹: Only IE supports JavaScript initiated full screen windows, which means that scroll bars will be required in other browsers if the screen resolution is too big, e.g. 1024px wide x 768px high. In order to avoid this, the maximum recommended screen resolution is 1000px wide x 700px high is suggested. Depending on the particular Windows version and PC configuration, a smaller screen resolution may be required.

Note²: Standalone lessons may run in other browsers but Assima does not support this. If standalone lessons are being played in other browsers, ensure that the Automatic Compatibility Check is not selected.

Capture Point 2.1

Authors require Capture Point to record lessons.

With Capture Point, authors can record application screens and tasks (such as keystrokes and mouse clicks) as they work in live applications. Authors can further customize and enhance lessons based on the recorded data.

The minimum & recommended requirements for Capture Point

Component	Minimum Requirements	Recommended
Processor	Pentium IV 2000 MHz	Intel Core 2 Duo or more
Operating System	Windows XP	Windows Vista Windows 7 or later
Service Packs	SP3 for Windows XP	SP2 for Windows Vista SP1 for Windows 7
Memory	1 GB	2 GB or more
Dedicated Disk Space	100 MB	200 MB or more
.NET Framework	Microsoft .NET Framework 3.5 SP1	
Microsoft Office*	Microsoft Office 2003	Microsoft Office 2007 or later

*MS Word is required to export a project to a Word document.

Content Point 2.1

Content Point connects directly with a content server using the .NET framework and Web Services to allow Remote Authoring. This enables courses to be created collaboratively and updated from anywhere in the world.

Interactive and media-rich courses are developed using a drag-and-drop interface. Courses are delivered as single Flash movies. All that learners need are Internet Explorer and Flash to experience quality, interactive e-learning.

Authors require Content Point to edit recorded lessons. This includes all the tools to edit, structure and distribute training material.

After recording lessons with Capture Point, authors can further customize and enhance lessons based on the recorded data, using Content Point.

The minimum & recommended requirements for Content Point

Component	Minimum Requirements	Recommended
Processor	Pentium IV 2000 MHz	Intel Core 2 Duo or more
Operating System	Windows XP	Windows Vista Windows 7 or later
Service Packs	SP3 for Windows XP	SP2 for Windows Vista SP1 for Windows 7
Memory	1 GB	3 GB or more
Dedicated Disk Space	60 MB	200 MB or more
.NET Framework	Microsoft .NET Framework 3.5 SP1	
Microsoft Office*	Microsoft Office 2003	Microsoft Office 2007 or later
Browser	Internet Explorer 8.0	Internet Explorer 8.0 or better
Adobe Flash Player	Flash Player 8.0	Flash Player 9.0 or later

*MS PowerPoint is required to create a new slide sequence from a PowerPoint presentation.

Assima (Euronext ALSIM), a fast-growing international software company, develops and commercialises software infrastructure solutions for Global Fortune 500 companies helping them improve their agility by accelerating global deployment and increasing adoption of large and strategic information systems.
